

RICHARD DJIRACKOR

Full-Stack Software Engineer — Django · React · TypeScript

Accra, Ghana | (233) 053-232-5548 | rdjirackor@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

EXPERIENCE

Research Assistant (NSP) — IESS, University of Ghana *Nov 2025 – Sept 2026*

- Designed, built, and maintained the department's website, driving roughly 70 daily visitors and expanding IESS's visibility to researchers and collaborators worldwide.
- Analyzed environmental sample data to identify key environmental markers, translating findings into actionable insights for departmental reporting.

Software Engineer — COMPSSA, University of Ghana *Sep 2023 – Oct 2025*

- Built and shipped an online departmental dues-payment system, lifting team throughput by 10%+.
- Streamlined the development workflow using GitHub for issue tracking, pull requests, and branch management, improving team collaboration and release speed.

Freelance Software Engineer — Livingston Research, England (Remote) *Oct 2022 – Sep 2025*

- Delivered high-quality technical reports, programming solutions, and IT research projects to academic and professional clients worldwide, maintaining strong client satisfaction and repeat engagements.

EDUCATION

BSc. Computer Science with Mathematics — University of Ghana, Legon *Jan 2022 – Oct 2025*

PROJECTS

Inventory Manager & POS *(Django, TypeScript, React, HTML5, CSS3, REST APIs, Python)*

Centralized inventory, sales, and point-of-sale platform for small retailers — automates tax/discount calculation and receipt generation.

Fake News Detector *(Python, Jupyter Notebook, HTML, CSS, JavaScript)*

Statement-credibility checker combining ML models (BERT, MLP) with classical classifiers (KNN, Logistic Regression, Naive Bayes, SVM).

Password Manager *(Android Studio, Java, Gradle)*

Secure Android application for encrypted local password storage.

SKILLS

Backend: Django, REST APIs, Python

Frontend: TypeScript, React, HTML5, CSS3

Cloud & DevOps: AWS, Docker

Networking: Cisco, Huawei

Mobile: Java, React Native

Tools: Git/GitHub, Version Control, Microsoft Office

ACHIEVEMENTS

- Represented school at an NCCE-organized public talk addressing youth radicalism in the Kpando District, Volta Region (Aug 2021).
- Led a follow-up talk at own school on the same theme, helping raise youth awareness and reduce local incidents of violence.

LANGUAGES

English, Akan (Twi)
