SKILLS

Programming

Networking

Cryptography

Version Control Systems

Cloud Computing Basics

Mobile Application Development.

Proficient in Microsoft Word, Excel, PowerPoint.

ACHIEVEMENTS

In August of 2021, I represented my school at a talk organized by the NCCE (National Commission for Civic Education) in Ghana. The talk addressed the issue of youth radicalism in the Kpando district, Volta Region. I emphasized the importance of curbing radicalism and later conducted a similar talk at my school. This effort increased awareness among the youth and helped reduce violence

LANGUAGES

English, Akan (Twi)
